All sizes of albums are in inches.

You have full control over which album you want and how you want the photos laid out. If you prefer a photo in black and white, sepia or colour enhancement (colour flowers with the rest black and white) just let me know. I do not charge money for making any changes to the pages and you tell me when to send the album to print. Once you have picked your photos the albums can be ready within two weeks. The prices of the albums may go up so it is the price of the album at the time of making it that you pay, some couples wait a year to order their other albums. The price of the package at the time of booking will never change.

I can also provide canvas wraps from £95, and traditional framed prints with a wide selection of frame types, sizes and mounts from £195.

For something different why not have your favourite 100 images on an A1 poster in a collage style with a black frame. This costs only £99. Or to be completely original why not have your favourite wedding photo made into a jigsaw puzzle (16x12) for only £30.

Please use your imagination and order any combination of album, products and coverage you want. Regardless of how much money you spend, and how long I am there, you get to keep every photo!
